A Philosophy They say it best...

MUSIC:

"The true beauty of music is that it connects people. It carries a message, and we, the musicians, are the messengers."

- Roy Ayers

CONDUCTING:

"Good conductors know when to let an ensemble lead itself. Ninety percent of what a conductor does comes in the rehearsal - the vision, the structure, the architecture."

- Joshua Bell

COLLABORATION:

"I think it's a very important collaboration between the conductor and the ensemble - especially when the conductor is one more member of the ensemble in the way that you are leading, but also respecting, feeling and building the same way for all the players to understand the music."

- Gustavo Dudamel
